Attention: Chris Terrell

February 16, 2011

Dear Chris,

Per your request we can certify that the following compound are not contained in any electroless nickel products we make:

1. Cobalt(II) Sulfate – CAS number 10124-43-3
2. Cobalt(II) dinitrate-CAS number 10141-05-6
3. Cobalt(II) carbonate-CAS number 513-79-1
4. Cobalt(II) diacetate-CAS number 71-48-7
5. 2-Methoxyethanol-CAS number 109-86-4
6. 2-Ethoxyethanol – CAS number 110-80-5
7. Chromium trioxide-CAS number 1333-82-0
8. Chromic acid – CAS number 7738-94-5
9. Dichromic acid- CAS number 13530-68-2
10. Acids generated from chromium trioxide and oligomers

Metal Chem can certify that all of the above compounds are not a constituent in the manufacturing of our electroless nickel products.

Sincerely,

Bob Janik
Technical Director
Metal Chem, Inc
